

Landsat Science Team Meeting #5: Fort Collins, CO

January 6-8, 2009

Tom Loveland

U.S. Geological Survey (USGS) Earth Resources
Observation and Science Center (EROS)

Meeting Objectives

1. Review recent USGS and NASA LDCM implementation progress and issues, and Landsat status – including data gap issues.
 - Special focus on the status of the Operational Land Imager
2. Review activities of Fort Collins area remote sensing scientists.
3. Address future products technical issues.
4. Explore science and applications drivers for future missions.

Potential Meeting Outcomes

- **Priorities for future products and processing advances**
- **Improved understanding of the requirements and paths for future missions**

Recent LST Accomplishments

- **Meeting with USGS Director (CW)**
- **Strong presence at Pecora Conference**
 - Pre-conference workshop on technical topics
 - Numerous presentations during meeting
 - Sam Goward received Pecora Award!
- **AGU Poster Session**
- **Very responsive to information requests**
- **Weathered changes in LST agreements oversight (hopefully)**

Misc. Details

- Change in status for two members
 - Prasad Thenkabail – USGS Flagstaff, AZ
 - Lazaros Oreopoulos – NASA GSFC
- Head count for Ball meeting
- Head count for Tuesday night pizza party
- Transportation issues?
