

Landsat Communications Activities

Ronald E. Beck (beck@usgs.gov)

Landsat Science Team meeting

January 2010

Need to continue to make the science community aware of Landsat and related systems

Communications Team

- **Doug Spencer, National Center, Reston**
- **Rachel Headley, EROS**
- **Janice Nelson, EROS**
- **Ronald Beck, National Center, assigned to EROS**

Landsat related activities

- Education
- Conferences
- Publications
- Intra agency communications
- External and Partners

Education activities

- Work with NASA education team
- Continued cooperation with Smithsonian “Earth From Space” exhibit
- Handouts, education support materials

Conferences (USGS Bureau Shows)

- Society of Environmental Journalists, October, 2009
- Geological Society of America, October
- American Geophysical Union, December,
- National Council for Science and the Environment, January 2010
- Association of American Geographers, April
- ESRI, July

Conferences, continued

- Ecological Society of America, August
- Society of Environmental Journalists, October
- Geological Society of America, October
- American Geophysical Union, December

Additional conferences as appropriate

Publications

Intra agency materials

- Image of the week
- Federal Lands
- Strong use of Landsat, Land Remote Sensing, EROS, and USGS web sites

External and Partners

- **International Charter for Disaster relief**
- **Handouts and fact sheets**
- **Search for speaking opportunities, (for example, New York State GIS conference)**
